

# SPECIAL EXPEDITION

# WHALE SHARKS

## WHO IS IT FOR

*Are you a passionate diver willing to learn more about Gentle giants?*

*You want to be one of the citizen scientists to record them in the wild? This cruise is for you!*

*Not only will you dive on some of the most beautiful dive sites in Thailand but you will share this cruise with Thailand Whale Shark specialist: Kirsty Magson!*

## ITINERARY: SOUTH AND NORTH ANDAMAN

*This itinerary will focus on The Andaman Sea's best spots to see Whale Sharks such as Koh Bon and Koh Tachai in the Similan National park or Hin Daeng-Hin Muang in Koh Lanta National Park but we will also visit other amazing dive sites in the South and North Andaman Sea such as Richelieu Rock.*

*Not only will you have some fantastic dives but this cruise is also your chance to try Black Water diving!*

The itinerary is not fixed, we will remain flexible as much as we can in case we hear of a Whale Shark or Manta sighting nearby (except for Similan islands which requires booking ahead).

We plan 4 dives per day (including 1 sunset or night dive), 4 meals and a presentation per day.

Kirsty, our special guest on this trip is a Marine biologist and ocean conservationist, she will be happy to answer all the questions you may have about whale Sharks and the many other species she is passionate about...

**23 MARS 2024 TO 31 MARS 2025**  
**WHALE SHARK EXPEDITION**
